

1961
UNITED STATES
and
CANADIAN
COMMEMORATIVE
MEDALS and TOKENS

FOURTH ANNUAL LISTING

by Clifford Mishler

Acknowledgments

Numerous individuals have once again shown their interest in this publication by providing invaluable information regarding new issues. The prime contributors once again were Mr. Arthur Boraca, Mr. William Bryant, and Mr. Thomas Domhoff. Without the help of these men, plus the numberless individual contributors, it would have been next to impossible to compile a listing anyway near as complete as this one.

1961 UNITED STATES and CANADIAN COMMEMORATIVE MEDALS and TOKENS

EDITOR'S VIEWS AND COMMENTS

It will be noted that this listing contains supplements for each of the first three listings. The 1958 and 1959 supplements are each short two-page affairs, while the 1960 supplement totals four pages. The 1958 and 1959 supplements precede and follow the 1960 supplement, respectively. As these two supplements share the same sheet of paper, they must be separated at the binding valley, in order to insert them in their proper editions.

The 1959 listing is no longer available from the editor. This edition has been sold out for about six months. A few copies of the first edition (1958), about 25, remain available at this time. An adequate supply of the 1960 listing remains available.

For those who are interested in such figures, this 1961 listing is being printed to the tune of 400 copies.

This 1961 listing is probably not as complete as the previous years listing. This is mainly due to the great influx of pieces commemorating the Civil War. Because of the greater number of new issues, it is to be expected that more went unreported.

On page four is a listing of some general rules to follow in considering material for listing. It must be remembered that these are not stringent rules, rather they must be expanded and/or contracted in order to suit specific cases. Whenever a piece is discovered which seems to be on the brink, please let me know so that a definite decision can be made.

Remember, whenever a new commemorative medal or token comes to your attention, and if it has not been given a plug in any of the larger national numismatic publications (namely the NUMISMATIST, SCRAPBOOK, CNJ, NUMISMATIC NEWS, COIN WORLD, or COINS), please drop me a post-card. Let me know the issuer, the price, and any other information which you feel is pertinent. I can not possibly put out a listing which is anywhere near complete without cooperation on this matter from you interested collectors across the country. Please do not take the attitude which is too often, and too easily taken, that someone else has already reported the issue. It is best to keep the supplements as small as possible, and the only way this can be done is for me to be supplied with information about those pieces which receive

RULES FOLLOWED IN CONSIDERING MATERIAL FOR LISTING

1. Must be issued in commemoration of an event of local, state, or national importance.
2. No pieces issued in commemoration of the anniversary of a private firm are listed, unless they also commemorate an event of local, state or national importance.
3. Pieces issued by any numismatic clubs, associations, or societies, in commemoration of anniversaries, conventions, or any event.
4. Convention badges which have medallions attached as pendants are not included unless they fit in with a series of medals commemorating the same event. Then only the actual medallion itself is listed.
5. Pieces commemorating formal dedications, grand openings, etc., of public buildings, memorials, etc.
6. The anniversary, convention, and other medals issued by organizations such as the Masons will be listed.
7. Any piece which is listed must bear the date of the current year, or if not the actual date, there must be some reference to the date.
8. Pieces which are listed must be made by compressing a material between two dies, thus the piece has an irregular surface, rather than a printed one like wooden-nickels. In most cases this material will be a metal, although in some cases a plastic or fiber material is used, and perhaps in some cases other materials are used.
9. Looped pieces are not eligible for listing, unless they are also available un-looped; while holed pieces will be listed even if they are not available un-holed.
10. Plated varieties of listed pieces are not listed, unless the plated pieces were issued by the original issuer, rather than an enterprising individual as is often the case.
11. Any pieces which are listed must qualify under some of the provisions set forth above, although it is not necessary that all of the conditions are met.

INTRODUCTION

In order to explain the numbering system used in this listing, the following number is used as an example:

$$\begin{array}{cccc} 61 & . & M & . & 01 & . & 01 & \text{ (the number)} \\ \hline 1 & & 2 & & 3 & & 4 \end{array}$$

PART 1. This number, the last two digits in the current calendar year, indicates the year in which the piece was issued, this case of course indicating the year 1961.

PART 2. This letter indicates rather the piece is a medal or token; M, for medal and, T, for token. I have classified the pieces under the medal heading if they have no indication of value, or were not used as money during the celebration of the event commemorated. It is classified as a token if it does have an indication of value, or was used as money during the celebration of the event commemorated.

PART 3. This number indicates the state or province in which the piece was issued, as follows:

01 - Alabama	22 - Minnesota	44 - Vermont
02 - Alaska	23 - Mississippi	45 - Virginia
03 - Arizona	24 - Missouri	46 - Washington
04 - Arkansas	25 - Montana	47 - West Virginia
05 - California	26 - Nebraska	48 - Wisconsin
06 - Colorado	27 - Nevada	49 - Wyoming
07 - Connecticut	28 - New Hampshire	50 - District of Columbia
08 - Delaware	29 - New Jersey	51 - Hawaii
09 - Florida	30 - New Mexico	55 - United States
10 - Georgia	31 - New York	(general)
51 - Hawaii	32 - North Carolina	61 - Alberta
11 - Idaho	33 - North Dakota	62 - British Columbia
12 - Illinois	34 - Ohio	63 - Manitoba
13 - Indiana	35 - Oklahoma	64 - New Brunswick
14 - Iowa	36 - Oregon	65 - Newfoundland
15 - Kansas	37 - Pennsylvania	66 - Nova Scotia
16 - Kentucky	38 - Rhode Island	67 - Ontario
17 - Louisiana	39 - South Carolina	68 - Prince Edward Island
18 - Maine	40 - South Dakota	69 - Quebec
19 - Maryland	41 - Tennessee	70 - Saskatchewan
20 - Massachusetts	42 - Texas	75 - Canadian
21 - Michigan	43 - Utah	(general)

PART 4. This number indicates the individual number of the piece. Each piece of a different design is given a new number, even if the issuer is the same; also, even when the design is the same, only it is struck on a different size planchet, a new number is given. A small letter following this number indicates that a piece of the same design, size, and issuer was struck in more than one metal; the letters are also used to indicate pieces with or without and with different sizes of keychain holes, loops, etc. If there is a minor variation in the placement of inscriptions, or a var-

iation in the spelling of words, a letter is also assigned rather than a new number.

So, the number used in the example above indicates a medal issued in Alabama during 1961. It is the piece which was issued in commemoration of the 250th Anniversary of the city of Mobile, distributed by the Mobile 250th Anniversary Comm., and struck in silver by the U. S. Mint at Philadelphia.

As a special help to collectors of material pertaining to the Civil War Centennial, a star, ☆, has been placed in front of the number of those pieces issued in connection with the commemoration of events occurring during the conflict. In cases where more than one variety was struck of any specific piece, the star precedes only the initial listed variety.

Below the OBERVERSE and REVERSE descriptions are listed all of the details about the medal:

EDGE: The type of edge is indicated here; plain, lettered, numbered, reeded, etc. (When it is indicated here that the piece is scalloped, the outside perimeter is made up of a series of semicircular curves.)

METAL: The metal or finish in which the piece was struck.

DMR: The diameter of the piece in mm's.

s-square	{	When any one of these letters follow the number which indicates the diameter of the piece, the diameter indicates the distance between parallel sides.
h-hexagon		
o-octagon		
m-maximum	{	When this letter follows the number which indicates the diameter of the piece, it means that the piece is round, but of an irregular perimeter, and the distance is measured between the most distant points.
r-rectangle		
	{	When this letter follows the numbers which indicate the size of the piece, the width precedes the "x", while the figure indicating the height follows it.
*-asterisk	{	When an asterisk follows the number (s) which indicate the size of the piece, the exact shape of the piece is described in detail below.

CS: The number of copies which were struck of the piece.

a-approximately
mi-minimum
ma-maximum
unl.-unlimited

IP: The price at which the piece was originally released to the public and collectors alike.

free—It was initially released free of charge, generally for advertising or similar purposes.

award—No copies were released to the public, at least in most cases; instead they were given to important people, or to those who by some service or deed performed, earned them, as awards.

trial piece (s)—Pieces which were struck in a metal or finish different from the pieces offered to the public, and not used as an award. Usually only one or two copies are struck.

SB: The name of the firm which struck the piece, as follows:

af—Aug. C. Frank Co., Philadelphia, Pennsylvania

ar—Alan Randal Company, Los Angeles, California
 at—Allison-Trophies (address unknown)
 aw—Anderson & Williams, Providence, R. I.
 bb—Bastian Bros., Rochester, New York

 st—Stanley Manufacturing Co., Winnipeg, Man., Canada
 sw—Spokane Stamps Works, Spokane, Washington
 tw—Trayling & Waters, Vancouver, B. C., Canada
 wh—Whitehead & Hoag, Newark, New Jersey
 wn—Wendell-Northwestern, Minneapolis, Minnesota
 ws—William Scully, Montreal, Quebec, Canada

DSR: The designers name is listed here. When there is a diagonal between two names, the first designed the obverse and the second the reverse. When there is an "&" between the two names, the two worked together, and neither did one side in its entirety.

ISR: This is the name and address of the firm or organization which released the pieces to the public and collectors; or in some cases where the organization which undertook the issue had someone else distribute it, the name of the first organization is listed.

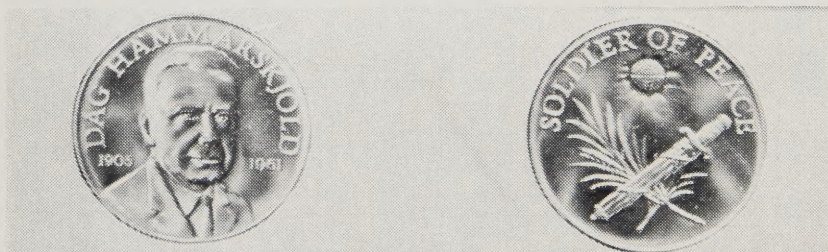

PL: The plate number on which the piece is illustrated. When this number is followed by, (enl), the piece as illustrated on the plate is twice actual size, unless otherwise indicated.

Common token reverse styles are no longer being illustrated. Now only those tokens which portray special devices on the reverse have this side of the piece illustrated on the plates.

DAG HAMMARSKJOLD COMMEMORATIVE MEDAL

The year 1961 marked the appearance of the first "occasional" piece to be issued by Heraldic Art, Box 735, Cleveland 22, Ohio. This piece was issued in addition to their regular three issues per year Commemorative Medallion Series, and as such was struck in a larger diameter, 33mm vs 31mm. Another distinction is the fact that this piece does not have a reeded edge.

On the obverse is a portrait bust of the late Secretary-General of the United Nations. The dates, **1905** and **1961**, flank the bust. Above the portrait is his name, **DAG HAMMARSKJOLD**.

The reverse depicts palms crossed by a Roman sword, and in the distant space above is a U.N. symbol. Around at the top is the legend, **SOLDIER OF PEACE**.

Sculptor of the models for this piece was Mr. Walter A. Sinz. Only 5,000 sterling copies were struck, and none were struck in any other metal. As indicated above the diameter of this medal is 33mm, and it has a plain edge.

The execution of this piece certainly follows in the tradition established by the medals issued in the Commemorative Medallion Series, which was begun by Heraldic Art in 1959.

EDITOR'S VIEWS AND COMMENTS

(Continued from page 2)

little or no publicity, and you collectors are the ones who must afford me this service.

The listing of 1962 issues will be along the same line as this present one, but it is anticipated that there will be a major change, commencing with the listing of 1963 issues. Everyone who purchases this listing directly from the editor will receive information regarding the proposed change, and this will be forthcoming in late October or early November of 1962.

KANSAS

61 . M . 15 . 01a

OBVERSE: A pioneer mother is depicted with her son in hand, recalling the monuments at Topeka, "Pioneer Woman" and Council Grove, "Madonna of the Trail." In her arm she holds a wheat sheaf and the boy holds a sunflower stalk in his hand. In the background is the present state capital (left), and the territorial capital (right). Legends above, **KANSAS STATEHOOD / 1861**; below, **1961**, between cottonwood sprays.

REVERSE: This is an attractive scene which embodies the various elements of the state seal. In the foreground a farmer tills his soil, with the rising sun and 34 stars in the background. The motto is above, **AD ASTRA PER ASPERA.** At the bottom are depicted the relics of three nations which figured in Kansas

history; a Spanish halberd, a flint lance, and a French cross; symbolic of the Spanish, Indian, and French nations, respectively.

EDGE: Reeded.

PLATE 61-12

A MEDAL FOR THE 35TH PRESIDENT

A beautiful proof silver medal for the 35th President of the United States was distributed by Welles & Co., P. O. Box 464, Topeka, Kansas. These medals have a diameter of 36mm, with a plain edge. There were only 8,500 copies struck, all in .925 Fine Sterling Silver. The striking was handled by a foreign firm, which is understood to be located somewhere in Germany.

The central device on the obverse is a bust of President Kennedy. Legends around read, . **JOHN F. KENNEDY** . / **THE 35TH PRESIDENT**.

The reverse is made up of a reproduction of the official Presidential seal. In the center the main device is a heraldic eagle, with

PLATE 61-17

WENDELL-NORTHWESTERN ADVERTISING TOKEN

Once again the Wendell-Northwestern firm, of Minneapolis, Minnesota, has produced an attractive advertising piece for their firm. This piece was produced to commemorate the 47th annual convention of the Marking Device Association, which was held in Chicago, Illinois during 1961. This firm is the primary supplier of the redemption type of tokens, which are currently being used to commemorate various centennial and other celebrations throughout the United States.

On the top portion of the obverse is depicted the skyline of the city of Chicago, while the new McCormick Place lakeside exposition and convention center is portrayed on the lower portion. Between these devices is the legend, **CHICAGO / "CONVENTION CAPITAL OF THE WORLD"**.

The reverse is inscribed with the legends; (left, **47TH**, right, **ANNUAL / CONVENTION**) / **MARKING DEVICE / ASSOCIATION** / **SEPT. 13-15, 1961 / CHICAGO, ILL.** At the very bottom is the signature of the striking firm, **WENDELL-N.W. MPLS.**

There were originally some 300 of these pieces struck for use as presentation pieces at the convention. These pieces were all pierced at the top for attachment to key chains, and all were struck in a gilt finish. Later some 400 more were struck in the gilt finish, but they were not pierced. At this same time 300 copies were struck in sterling silver, and this issue was also not holed. These latter two varieties were issued at \$1.00 and \$3.00, respectively, by American Medalists, 3014 31st Ave. So., Minneapolis 6, Minn. Needless to say, these pieces have a diameter of 34mm.
